WHEAT CLOSES WITH A 1c GAIN AFTER SHARP UPS AND DOWNS.

Foreign Markets Were Weak, but American Receipts Were Light-Corn and Oats Closed Higher After a Decline

Chicago, Sept. 22 .- All the grain and provision markets turned very pretty flip-flops to-day, starting weak and closing strong, and, in the case of wheat, with a very substantial advance. The strength of the cash wheat situation in the Northwest and confirmatory reports on the Russian crop shortage were factors in a 1 cent gain in wheat. Corn advanced %c, and oats %c. Provisions closed unchanged to 2%c higher. Wheat took its opening tone from Liverpool. Before the opening here, that marget showed a 1%d decline, which was reflected in the first trades in December, which ranged from 50%c to 50%c, or %flc below yesterday's closing prices. But the market immediately commenced to recover, and in about an hour and a half from the opening December had risen to £2%c. There was nothing particular in the news to cause the sudden change in the sentiment. A reaction appeared to be due in the natural order of things, and when some investment orders appeared on the market, shorts started to cover. The very narrowness of trading probably prevented a further advance. The only really bearish feature was the receipt of \$3 cars of wheat at Minneapolis and Duluth, against \$58 a week ago and \$40 the corresponding day of 18%. Even that was only bearish on the surface. The cash prices at those places to-day were from 2c to 2%c a bushel over December, so that the receipts there now represent probably the bulk of the entire movewheat. Corn advanced %c, and oats %c. ber, so that the receipts there now repre-sent probably the bulk of the entire move ent from the farms in the Northwest to the exclusion of any accumulations at interior country houses. The Chicago re-ceipts were 2M cars of wheat, of which only thirty-three were contract. The total receipts of winter wheat at Kanasa City receipts. only thirty-three were contract. The total receipts of winter wheat at Kansas City. St. Louis and Detroit was only 176,635 bushels. The business done at New York yesterday for export was reported to have largely exceeded what was made known of it the day before, the total being reported to-day at 485,000 bushels. Acceptances were reported of some of last night's cabled offers to the United Kingdom. A reaction followed the advance to 22½c, when closing Continental cables were received, showing Sections of 15 centimes at Paris and 12½ to 5 centimes at Antwerp. The longs also took advantage of the advance to unload a good deal of their holdings, and the result was that December dropped back to 90½c. Then the market turned for the last time. The cash strength at Minneapolis brought selling to a sudden halt and prices commenced to climb at once, not stopping antil December touched the high point of the day, 32½c, which was shortly before the menced to climb at once, not stopping antil December touched the high point of the day, 22½c, which was shortly before the close. Confirmatory reports from the United States consul at Odessa concerning the Bussian crop shortage also helped in the late strength. December closed at 32½c.

Corn started easier, with wheat, and on larger receipts than expected. The market soon recovered lis tone and closed strong and ¾c higher than yesterday. It was largely a scalping market, and the fluctuations of wheat had more influence than anything else. Shorts were the best buyers. Country offerings were reported larger. The cash demand was poor. Receipts were posted at 55% cars. December ranged from 20%c to 31½c, closing at 31¾c.

Oats were quiet but firm. The feature was the large cash business, 750,000 bushels being reported sold here for shipment, and this was the principal cause of the strength, though to a certain extent wheat and corn assisted. Receipts were 20% cars. December ranged between 21c and 20½c, and closed at 20½c, and advance of ¼c.

Provisions were almost as slow as oats.

ranged between 3 were 30 cars. December and closed at 20%c, an advance of %c.

Provisions were almost as slow as oats. The market ruled easy around the opening, because of the heavy hog receipts, and consequent decline in yard prices. A complete recovery followed, with the advance in the grain markets, and the closing was at the best prices of the day. At the close July pork was 2%c higher at \$8.40; December land unchanged at \$4.50% for%, and December ribs 2%c higher at \$4.95.

Estimated receipts Thursday: Wheat, 215 cars; corn, 485 cars; oats, 230 cars; hogs,

ing of the crop year. Tuesday the market was again bearish, under the influence of a sharp break in futures and lower cables, but as the arrivals were very light the cash market here, while weaker, refused to sympathize to the full extent with futures. Wednesday the market opened a little lower, under the influence of lower cables and the anticipated free marketing of the spring wheat crop, but, just before the close, under the influence of bad crop news from Russia, a reaction set in and part of the early weakness was regained. the bullish sentiment was eliminated from the trade the past week. The recent dry weather, while cutting down the yield, at he same time prematurely ripened the rop and placed it beyond damage by frost hus removing from the market one of the all arguments so potent heretofore. And als, with a continued free movement of orn to market, worked a decline of 1%c in cember deliveries in Chicago and caused December deliveries in Chicago and caused a slight loss here in cash grain and more cautious buying. While December here, up to Tuesday, sold off 1½c per bushel, Wednesday the market was again weak, but demand fair at the prices. STOCKS RECOVERING TUESDAY'S WEAKNESS AND GOOD BUYING.

The Bulls Regaining Their Lost Ground in Wall Street-The Hardening of the Money Market Unavailing.

While money is being more actively employed than for a long time, and New York continues to lose money to the country at a rapid rate and a hardening of rates there, interior cities report funds in good supply and easy. The New York bank statement last Saturday showed an increase in deposits of \$5,625,900, but a decrease in deposits of \$5,735,650, making it now \$19,894,375 above the 25 per cent rule. Most of this loss was to the country. The interior banks reducing their balances and in many instances increasing their rediscounts, resulting in a marked benefit to the country at large, as it relieves the congested condition of the money market in New York and greatly facilitates the movement of general trade of the country. While call loans in New York have been advanced, time rates are unchanged, still 36445 per cent, as to date. Boston as well as New York reports money firm, but it is quiet in Baltimore and easy in Cincinnati. The situation in Chicago is firm and a steady and active loan market is had in St. Louis. Here at Kansas City money is in good supply and easy. The grain men continue good borrowers and there is a little more live stock paper offering, but general trade is borrowing less than usual at this time of the year, good collections enabling merchants to work largely without their means. Bank clearings for the week ending Wednesday were, \$1,712,942; same time last year, \$9,375,021, an increase of \$2,35,621, a gain of 24 per cent. Eastern exchange steady, but quiet. Houston, Fible & Co., exchange brokers, quote it as follows: New York, 25c premium; Chicago, 25c premium; St. Louis, 25c premium. Gold reserve yesterday was \$146,781,917.

New York, Sept. 22.—The result of today's transactions on the Stock exchange resulted in the recovery of the greater part of the losses sustained in yesterday's sharp reaction, many stocks closing to-night higher than Monday night. During the early part of the day the market was extremely irregular and uncertain in tone, a number of specialties continuing to show marked weakness even after the railroad list had recovered from its reactionary tendency. But by the second hour of trading the bears had practically abandoned their efforts to work a reaction and the whole market was tending strongly upward. The manifest disposition of London operators and of commission house customers to buy stocks at a decline here afforded a support to the market that discouraged the bears. The nervousness over the hardening of the rates for money also largely subsided as the shifting of loans developed more accurately the true level of the money market. The rates for call money continued to run as high as 4 per cent, but as fast as rates were marked up to 4 per cent there was abundant supply offered at as low as 5 per cent. This was not regarded as indicating a stringent condition of the market. The higher rate was not felt to be justified by the condition of the market, and the failure of the exchange market to respond with any marked weakness to the 4 per cent asking rate confirms the same view. There was a marked reaction at one time during the day, due to the sharp profit taking in Rock Island on the announcement of the declaration of a 1 per cent guarterly dividend. The bond market showed some falling off in activity, but prices were strong except in the Standard Rope issues. Of these the 6s lost 6 points and the incomes 1½. The total sales were \$2,500,000.

The following was the range of prices yesterday, as furnished by the C. S. Lee Commission Company, 200 New York Life building:

Dry Goods.

New York, Sept. 22.—The dry goods market is unqualifiedly dull in all grades. The market for cotton goods is quiet, with sales of smaller proportions than for several weeks. Prices so far are well sustained in oth staple cotton lines and printed goods hile woolens are in steady reorder request both men's wear fabrics and dress goods. in both men's wear fabries and dress goods. In staple cottons the lightweights are quiet for export demand; in many cases looms formerly making these goods have been put on another basis. Bleached cottons are firm and quiet, except among manufacturers. Print cloths are undoubtedly somewhat weaker. The quotation of 25 for extras is nominally maintained, but there are no bids for futures or spots at this figure.

SOUTHERN PACKERS COMING TO THIS MARKET FOR HOGS.

Several Carloads for Birmingham Ala., Bought Yesterday-Export Cattle Business Appears to Be Brightening.

A new demand has sprung up for Kansas City hogs in the South. J. C. Orr. of the Tennessee Packing Company, at Bir-mingham, Ala., who has been in the city for several days, yesterday bought several loads of hogs for his packing house, taking the medium weight bacon hog. He has heretofore gotten his hogs East and North, this being the first purchase he ever made in the West. He was much pleased with his treatment and we will doubtless see him again.

The export cattle business seems to be brightening up again. There were thirty-two cars of choice heavy cattle shipped out to New York Tuesday night.

Tim Burns, Eastman's head cattle buyer, with headquarters in Chicago, has been here buying cattle for the past two days. He is delighted with our yards and his treatment.

The strength of the Kansas City cattle market is shown in the fact that it is cutting in on Chicago's trade in South Dakota. C. G. Slaughter was in yesterday from that country with a train of cattle and did well. J. M. Coburn. Adobe Walls, Tex., of the Hansford Land and Cattle Company, was here yesterday on business. He says he will brand 8,500 to 9,000 calves this season. He says the range is good and cattle doing

More Texas Fever in Kansas.

Topeka, Kas., Sept. 22.—(Special.) The state live stock sanitary commission has discovered Texas fever in Montgomery county and has quarantined the stock farm of Paul Schuetz. Schuetz has thirty-six head suffering with the disease and three have died. The disease was brought across the quarantine line with seventeen smuggled cattle, and the commission expects some arrests to be made in a few days. Taylor Riddle, member of the commission, said to-day that the cattlemen had become very daring of late and that some of them would have to be taught a lesson. Nine different parties are under arrest now in Montgomery, Cherokee and Labetts counties on the charge of violating the sanitary law, and Mr. Riddle says that the cases will be pushed vigorously. He says that evidence has been procured which is dead certain to stick Tritthart, Jarboe and Dent, the three men who shipped diseased cattle to the Kansas City stock yards. The person who drove the cattle across the line for these rhen has turned state's evidence and his testimony will be used at the trial which comes up in Labette county in a few days.
